

Unwell Person Flowchart

An unwell person is displaying signs and symptoms of COVID-19

- Have you confirmed to parents that when returning children to school, there is adequate availability from family members to collect their child?

Isolate the individual in your isolation / first aid room

- If you have multiple individuals displaying signs and symptoms (at the same time), consider cohorting these individuals.
- Make sure that the area is ventilated.

Appropriate adult supervision

- Consider PPE for supervising adult, where a distance of two metres cannot be maintained.
- Consider PPE for supervising adult, where personal care is required.
- Consider toileting arrangements during their isolation.
- The member of staff who has helped does not require to go home unless they develop symptoms.

Call 999

- Call 999 if seriously ill / injured / life is at risk.

Positive tests

- If the individual tests positive, they will isolate for seven days.
- Their fellow household members must isolate for 14 days.
- The rest of the 'bubble' will be advised to self-isolate for 14 days. The rest of their household does not need to self-isolate unless one of those individuals tests positive.
